

# Mountview Community Kindergarten

**Weekly Update:** Monday, October 12th, 2020.

## **A WARM WELCOME**

This week we are starting a new chapter by combining the Kindergarten students in room 128. We feel so fortunate that we had the opportunity to start the year off in smaller cohorts. This gave the students a chance to settle into the school year with more one on one support. We know the students are ready for this next challenge and we are so happy to have such a wonderful group to work with. To find out more about our individual teaching pedagogies, please visit our classroom website. If you ever want to arrange a meeting to discuss matters pertaining to your child, please reach out. All contact information is also listed on our classroom website. We look forward to partnering with you to give your child the most positive school experience possible.

## **Updated Daily Schedule**

To accommodate our new prep schedule we have updated our daily schedule and routines. You can check out the flow of each day on our classroom website.

## **Happy Monday Messages**

Our classroom program is built around positive reinforcement and celebrating each child's accomplishments. Every Monday, your child will receive an individualized thank you from our team for positive contributions they have made to the class. You will find this message here:

## **Our Classroom Blog**

Last week our lessons centred around how to help others in our classroom and at home. We looked at being thankful for our unique gifts and abilities. We learned about personal power and how we can listen to our heart to do the right thing even if others are not. To see more about what we learned about, check out our weekly classroom blog!

## **Our Weekly Lessons**

This week, our theme is finding beauty in change. We are going to get a new classroom pet. We will observe how this pet goes through a complete metamorphosis and emerges full of beauty. We will look at patterns in nature such as the life cycle of a butterfly and symmetry. To check out our weekly plans ahead of time check out the following link on our classroom website.

## **Helper of the Day**

Each day one student is selected as the Helper of the Day. The Helper of the day helps to lead our daily Math routine and presents a Mystery Object to the class. When your child is Helper of the Day please send them to the class with a mystery object in a concealed bag. The other students will use their deductive reasoning skills to infer what this object is. Please see the updated Mystery Object Schedule on our classroom website.

## **Our Bitmoji Classroom**

This week our **Letter of the Week is the letter D** and our **Word Family of the Week is -ap**. Have fun practising these language activities at home in our interactive bitmoji classroom.
